

Curriculum Vitae

Name: Uffmann, Hans-Peter
Birthday: 4th of May 1947
Resident: Aachen, Germany

Education:

1968-1973 Studies with the subject of civil engineering
14th of January 1977 PhD

Professional Development:

1977-1984 Academic Assistant and Chief Engineer at the
"Institut für Baumaschinen und Baubetrieb der
RWTH Aachen" (Institute for construction
equipment and construction activity of the
technical University of Aachen)

1984-1986 Manager and Technical Director of the
company **KRINGS-International** in Heinsberg-
Dremmen (Germany)

1986 Establishment and since then manager of an
engineering office¹

and since 11/1986 Establishment of **Bohrtec Ltd.**, associate and
technical director, since 1990 manager²

since 1st of December 1992 Public appointed and sworn expert for trench
lining, technique for pipe jacking and
microtunneling³

Member in the following working groups:

ATV 1.5.3	Trenchless Construction Technologies; Spokesman of the group
ATV 1.5.2	Documentation of tenders and detailed estimates for the construction of sewers in the field of pipe jacking
ATV 1.6.1	Guidelines for site draining
GSTT	Member since 1993 (German Society for Trenchless Technology)
GSTT Advisory Service	Expert for pipe jacking and microtunnelling
Güteschutz Kanalbau	Member since 1991 (Quality protection in channel construction)

¹ The engineering office is mainly busy with consultation and expert's opinions with respect to microtunneling machines and systems for pipe jackings up to DN 3000.

² Bohrtec Ltd. manufactures ground-boring machines for the trenchless construction of small pipes (up to DN 800).

³ Within the scope of the activities as an expert, a vast number of claims in the field of pipe jacking have been examined.
